Summary

MCA student and passionate coder with a strong foundation in problem-solving and software development. Skilled in Java, JavaScript, React.js, Spring Boot, REST APIs, databases, and Data Structures. Interested in building scalable applications and learning new technologies while contributing effectively in a dynamic software development environment.

Education

Vivekananda College of Engineering and Technology, Puttur <i>Master of Computer Applications (MCA) – Pursuing</i>	Aug 2026 – Present CGPA: 8.77
GFGC Carstreet, Mangalore <i>Bachelor of Computer Applications (BCA)</i>	2022 – 2025 CGPA: 8.81
Capitanio Composite PU College, Kankanady <i>Pre-University (PU)</i>	2020 – 2022 Percentage: 80
Nithya Sahaya Matha English High School, Arkula <i>SSLC</i>	2017 – 2020 Percentage: 93.6

Technical Skills

Languages: Java, JavaScript, Python, C

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Spring Boot, Express.js, REST APIs, WebSockets

Databases: MongoDB, MySQL, Redis

Tools & Platforms: Git, GitHub, Docker, Copilot, Claude, Postman, VS Code, IntelliJ

Concepts: Data Structures & Algorithms, OOP, JWT Authentication, REST

Soft Skills: Communication, Teamwork, Leadership

Projects

- Smart Utility Portal: Simplifying Academics with Smart Tech** [Smart-Utility-Portal](#) 
- Developed a full-stack MERN application to centralize academic activities for students and lecturers with **Role-Based Access Control (RBAC)** and secure **JWT authentication**.
 - Implemented **WebSocket-based real-time communication** to enable instant updates between users without requiring manual page refreshes.
 - Dockerized the application** to containerize the development and deployment environment, ensuring consistent configuration across systems.
 - Built a responsive user interface and optimized backend operations to provide a reliable and seamless academic management experience.
- AgriVault: Centralized Inventory – Secure Asset Management** [AgriVault](#) 
- Developed a production-ready full-stack **Next.js** application to streamline agricultural inventory tracking for grains, fertilizers, and tools.
 - Engineered secure authentication using **JSON Web Tokens (JWT)** and **HTTP-only cookies**, enforced through Next.js edge middleware.
 - Integrated a serverless backend architecture with **MongoDB Atlas** to perform real-time dynamic CRUD operations with optimized database queries.

Certifications

- Introduction to Generative AI Studio** – Google Cloud (2026)
- Data Analytics Job Simulation Certificate** – Deloitte, Forage (2026)
- Build with AI Bootcamp** – Google for Developers - H2S (2026)
- Elite Gold Certificate** – Research Methodology and IPR, Visvesvaraya Technological University (VTU), Belagavi (2026)
